

# All-Weather Wicker Care

By Neptune Classics

---

Thank you for purchasing a Neptune all-weather wicker Product. We hope that this will bring you years of enjoyment. To get the best from this Neptune product please read the details below.

## All-weather wicker -

To clean the chairs, a pressure washer or jet wash on a wide spray can be used at a distance of approx 1m from the product. Do not aim this directly at the joints of the furniture. Alternatively it can simply be wiped down by hand.

The table bases should be cleaned carefully so as not to watermark the tabletops.

## Frames -

The frames on Neptune's all-weather wicker products are made from either stainless steel or aluminium. Both materials offer the best in rust resistance.

The feet on Neptune's all-weather wicker products are made from a nylon which by it's nature is hard-wearing. We would however still recommend lifting the products to move the items instead of dragging them which may cause some damage to either the product or the area in which you choose to use them.

Neptune cannot accept responsibility for any damage caused to the product due to treatment. Please keep this document and instructions for future reference.

March 2009 - E&OE
