

# Cushion Care

By Neptune Classics

---

Thank you for purchasing a Neptune product. We hope that this will bring you years of enjoyment. To get the best from this Neptune product please read the details below.

Neptune's outdoor cushions are made from Duratex 65 which is soft to the touch and gives high protection from everyday wear and tear.

All of our outdoor cushions have removable washable covers which have a quick-drying splash-proof coating. This will allow any water based liquids to simply roll from the fabric if tackled quickly. This also means that they can be left outdoors even in the rain and will dry very quickly. Any spillages on the cushions should be mopped up as quickly as possible with something absorbent.

Covers should be washed on a 30°C wash. Please note that after 5-6 washes the splash proof coating may lose some of it's effectiveness.

Dark cushions should be stored out of sunlight when not in use to prevent any fading.

Please keep this document and instructions for future reference.
