

Glass Care

By Neptune Classics

Thank you for purchasing a Neptune product. We hope that this will bring you years of enjoyment. To get the best from this Neptune product please read the details below.

All glass table tops are made from 8mm thick tempered glass. This means that should the glass top break it will do so into small pieces with round edges. Care should still be taken whenever moving the position of the glass.

When cleaning your glass table top we would recommend using a clean static free cloth with a proprietary window cleaner. Alternatively you can use a small quantity of vinegar and newspaper.

Please keep this document and instructions for future reference.
