

Henley Care

By Neptune Classics

We are delighted that you have chosen to purchase one of our Henley pieces. Whether it is a classically designed dining table or an elegant free standing cabinet, we are sure you will be delighted with your new Henley purchase!

MATERIALS

Oak finish -

The Henley finish is based on a cellulose lacquer developed exclusively by Neptune. This finish enhances the look of the Oak timber and seals it against the environment. To maintain the appearance of your Henley furniture, it should be dusted with a soft cloth in the direction of the grain. It may occasionally be wiped with a soft, slightly damp cloth and dried with a lint free cloth. The repeated use of a polish containing silicone is not recommended as it will lead to a build up of a silicone film altering the appearance of the furniture. Avoid using any polish that contains alcohol, ammonia or any acids.

Frames -

Our frames are made from solid Oak, a hardwood that is well known for its strength and beautiful grain structure.

Door panels -

Our panels are made with a solid Oak frame and an Oak veneered ply panel. Plywood is used for its strength and stability.

Drawer boxes -

Drawer boxes are made from 15mm thick solid Ash. This timber has been selected for its strength and to compliment the Oak.

Hardware -

Hinges are traditional butt hinges made of chrome plated brass. Doors are closed with Neptune magnetic catches to guarantee long term performance and beauty.

CONSTRUCTION

For structural joints the Henley collection incorporates the traditional and best method of mortice and tenon joints, which are reinforced by the latest technology in modern adhesives. Followed by the drilling and dowel locking of each structural joint to guarantee a ridged framework that will last from year to year.

The drawers are made using the traditional skill of dovetail jointing, which not only gives high strength characteristics, but also adds to the natural beauty of each piece.

Drawer runners are supplied by Blum – These are fully extending Soft Close under drawer runners. Release catches are provided to allow the drawers to be easily removed and automatically re-attach when drawer is placed back on the runner and drawer is closed. These are offered with a manufacturers lifetime guarantee and will hold up to 30kg's.

Now all you need to do is sit back and allow your new Henley addition to become an integral part of your home and lifestyle. We hope you enjoy your furniture as much as we did designing and making it!

Best Wishes
